Medieval Beginnings: The Birth of Gothic Architecture The term "Gothic" originally emerged during the Renaissance as a pejorative descriptor for the architectural style that was perceived as barbaric or primitive compared to classical Roman and Renaissance aesthetics. However, the style itself originated in 12th-century France, marking a significant evolution from earlier Romanesque architecture.

Key features of Gothic architecture include:

- Ribbed vaults: Facilitating complex ceiling designs and distributing weight efficiently.
- Flying buttresses: External supports that enabled higher walls and larger windows.
- Stained glass windows: Creating luminous interiors filled with colorful light.
- Verticality: Emphasizing height and the aspiration towards the heavens.

Prominent examples include Notre-Dame de Paris, Chartres Cathedral, and Westminster Abbey. These structures reflected religious ideals and aspirations, creating awe-inspiring spaces that symbolized divine grandeur.

Transition to Gothic Literature and Art While Gothic architecture was rooted in medieval spirituality and craftsmanship, the term "Gothic" took on new connotations in the 18th and 19th centuries. Writers and artists began to adopt Gothic motifs to explore themes of mystery, horror, and the sublime.

Key developments include:
